

Greetings,

The Grays Harbor Chamber of Commerce is excited to announce that, in partnership with The Daily World, we will publish our first Business and Membership Directory in 12 years.

The directory will serve the mandate of the Chamber to promote our businesses. We will provide members two free listings; one alphabetically by name and one by a category. Your business will also have the opportunity to advertise so you can be more prominently noticed.

The directory will also serve the mandate of the Chamber to promote our area with community-focused articles that will illuminate our way of life to potential investors and people who are thinking about relocating and need to find goods and services. It will also let you as Chamber members easily access the services your fellow Chamber members provide. We know it is important to you to support local businesses in your community, and we know you'll appreciate the convenience of the directory.

This comes at the moment when the directory can be utilized by the workers and businesses that will locate in the Grays Harbor area for the State Route 520 Pontoon Project or the rail improvements at the Port of Grays Harbor, and for other projects that are under consideration, like the Grays Harbor Energy expansion.

The directory is a wonderful opportunity for you as a Chamber member to make connections with potential customers, promote your business and show your sense of pride in our community. We are happy to offer you this product, and know that you will love the results.

Your Chamber is Working for You,

LeRoy Tipton

President/CEO

Callie White

Vice President
